## THE COMMODORE'S OFFICE IS PREPARING THE SUMMER TROPHY

**Marcos Pereira is the Vice-Commodore of the Naval Club, his role is to assist the Commodore. The Commodore's office is the key-piece of the club, everything goes through this department.**

*Marcos Pereira, Vice-Commodore*

## SPORT FISHING

The Summer Trophy fishing competition will be held on December 15. "This first and only competition of the year will be a test of our ability to organize a major event, a two-day international fishing competition, scheduled on February 16 and 17, 2013, as part of the celebrations of the Club's Centenary."

To take part in the Summer Trophy fishing competition, you shall register from December 1 to 14, at the Naval Club Secretary. The cost is 500 meticaís per fisherman.

Each boat must have a minimum crew of two people and the maximum will be dictated by the capacity of the boat described in the registration document.

Regulation of the competition is available at the Naval Club Secretary.

This year, the rules are a little different, with a new scoring model.

The competition will have two divisions - Bill Fish and Game Fish - but in terms of scores, these divisions are independent, ie the points of each division will not count against the other division. Thus, different boats may win each of the divisions, and one boat may win both divisions.

We hope a lot of participation from the Naval Club fishermen !

Note also that the revision of the Rules of Recreational and Sport Fishing, Decree 51/99 of 31 August is currently being discussed.

The key points of this review are:

- Revision of all fishing fees,
- Restriction of capture,
- Increased communication and collaboration of nautical clubs with the Ministry of Fisheries for better monitoring of catches. It should be noted that from the 1st of November, the Naval Club has been collecting information on catches, so every boat that arrives at the Club must declare its catches.

The Regulation is available at the Secretary of the Naval Club, contributions may be sent shortly to the email: [clubenaval@intra.co.mz](mailto:clubenaval@intra.co.mz) to prepare the meeting with the Ministry of Fisheries to develop the new Regulation.

## JUDO

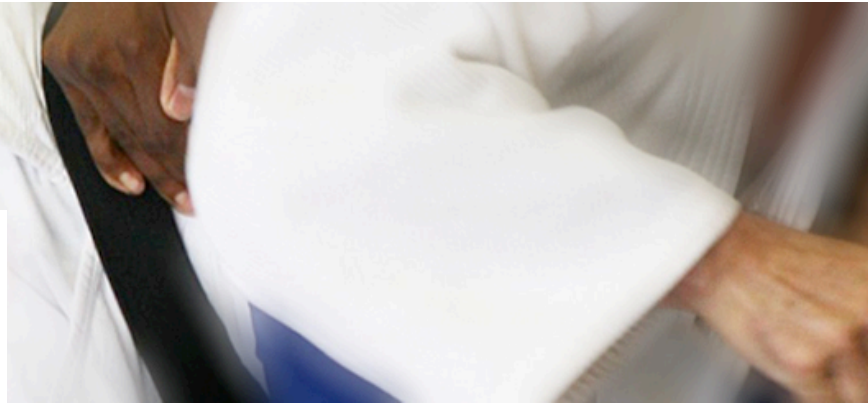

Yannick Martins

Yannick Martins, 14 years old, is a judo athlete of the Naval Club.

This young blue belt judoka who has been training for more than five years with the instructor Edson Madeira, was in Gaborone, Botswana, between October 3 and 7, where he attended the First Edition of the Africa Cup of Cadets and Juniors with about 50 other athletes from African countries.

Yannick defended the colors of Mozambique with vigor and got silver medal in the Cadet category.

"I like judo because it is a beautiful sport, I like the interaction and techniques. My specialty is ouchigari, a legs technique that consists in making the opponent fall. In this sport, I want to get the black belt, win the gold medal at the African Championships of Judo and maybe later the World Championships and Olympic Games! "

The Naval Club Teenagers Team with the instructor Edson Madeira

As announced in the issue of October, the Naval Club has begun with the swimming season.

Registration for swimming lessons are open to members and also for the swimmers who previously attended swimming lessons at Naval Club, although not members.

## PLACE TO CLEAN THE FISH

The Naval Club has built a convenient and hygienic place that allows cleaning fish with a view on the sea.
